

Hummingbird's

Stay and Play Catch Up Corner

This week we will be promoting language, communication and speaking.

Talk Talk Talk Talk Talk Talk

Every day talk

Even if your baby or toddler is just babbling or making cooing noises, you can still talk to them.

Give them the opportunity to respond.

Its ok to babble to your baby, they will respond back by doing the same!

Reading with your baby.

Read and share lots of books together.

Reading lets your child hear lots of words, also read in your own language, is a good way to start your child talking.

Colourful picture of touch and feel books encourages your little ones to talk.

Become a singer!

Singing to your baby also promotes bonding time together and attention

Sing their favourite nursery rhyme songs.

Watch them listen to the sounds of language and they will want to engage with you.

Here are few rhymes to help you along.....

Row Row Row your boat,

Humpty Dumpty,

Twinkle twinkle little star,

Five little ducks,

The wheels on the bus,

Incy Wincy Spider.

The repetition of words and verses can help children to develop their language.
