RE: INSET Day Friday 5th March

Dear Parents and Carers,

We are currently finalising the return to school plan and the plans for the testing centre for the 8th March.

In order to ensure that staff are ready for the return to school and that the school has been prepared for the students return we are not going to be running live lessons on Friday 5th March. All of the student lessons on this day will be taught via materials placed on Google Classroom. Students will be expected to complete this work independently as it will be required when they return.

This also means that the hub will be closed on Friday 5th March as all staff will be undergoing training and testing in preparation for the school reopening. We apologise for any inconvenience this may cause but it is essential that we are ready for the following week and the return of all students.

I will be in touch on Monday 1st March with arrangements for the return to school plans.

With kind regards,

Mr A Barzey
Headteacher
